scanmagnetics.com

Since 1991, GESAB is at the forefront of technology offering the best products, generating new ideas, giving a new vision on his markets and optimizing his strategy to perform successfully his projects.

Design integration in each project is the key to get innovative and adapted solutions.

The search of last generation technologies gives us the possibility to offer innovating products, integrated in efficient solutions in front of new situations which represents new environments: KVM commutators systems, consoles, technical's furniture, racks 19'' and ergonomicals accessories.

This thirst of control push us to be the reference in development of projects integration in control room, Datacenter and technological environments.

Headquarters - Madrid

Manufacture - Barcelona

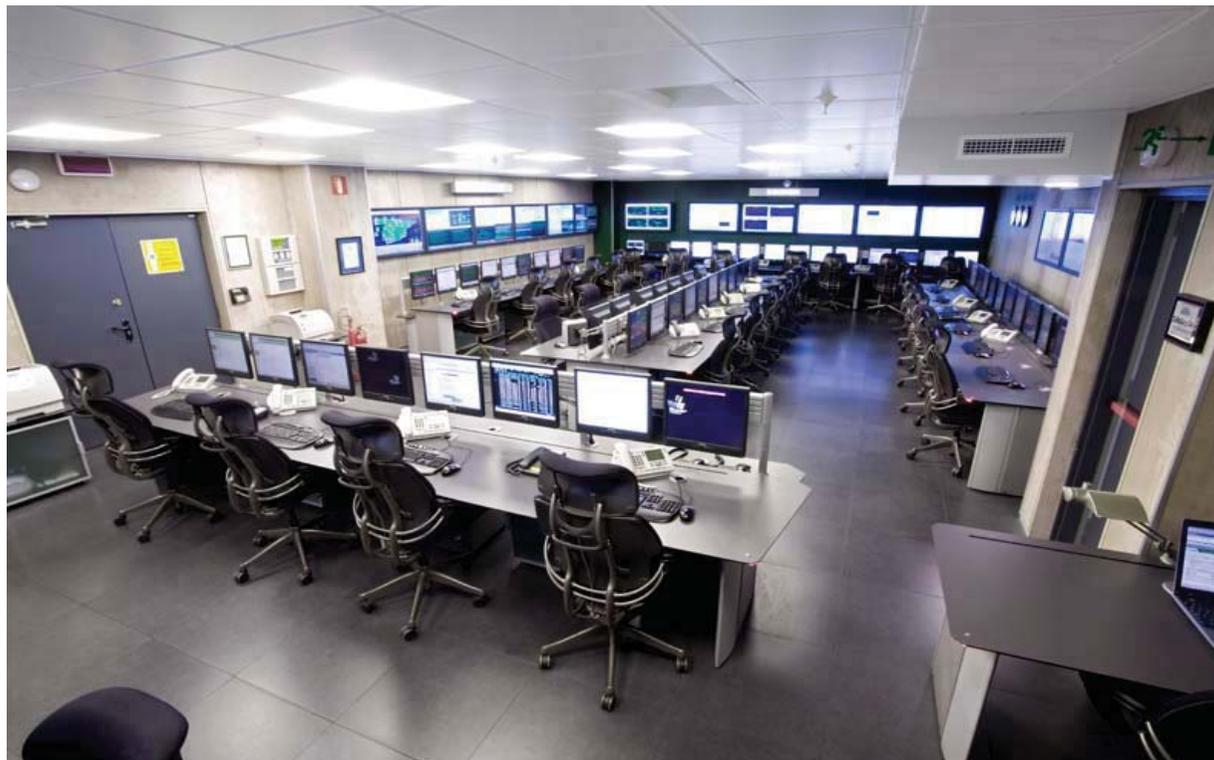

SOLUTIONS

SOLUTIONS CONTROL ROOMS

Control rooms 24/7 are the principles images for technological environments and security, with specific needs in high dimensions visualization, systems of retro projection and LEDS, KVM solutions and execution of Datacenter.

GESA is a reference in integration multidisciplinary for these critical environments of works. We consider rigorously the factors for acoustical comfort and luminosity, we define the adequate materials and colours and evaluate the adapted ergonomical solutions for each operator.

CONSOLES

advantis console

Advantis DOMO is a natural evolution of ADVANTIS for NOC environments.

PRODUCTS
TECHNICAL FURNITURE

The line TECNOLAN and TECNOWORK is based on a modular architecture for vertical composition.

This is an highly ergonomical and multifunctional furniture, with an innovative design for optimum solutions in computer and electronics equipments organization.

Features :

- Structure with ratchet system,
- Stabilizers high strength,
- Laterals with vertical cabling systems,
- Union between systems,
- High quality and 10-year guarantee,
- A wide range of accessories.

Applications :

- Reprographic zone,
- Audiovisual zone,
- R&D departments,
- Datacenter, control rooms,
- Production sites,
- Services,
- Schools.
